Dear Bowen Mayor and Council,

As representatives of the will of the Bowen community, I urge you to listen to us and please do not allow the logging of crown land on Bowen Island.

The community of Bowen Island is a powerful one that will not stand for the logging of its beautiful crown land. Please do not let them touch our trees. We will remember that you allowed this and you will be on the wrong side of history, mark my word. We will climb the trees and chain ourselves to them; we will blockade their access and we will do absolutely everything we can to stop logging companies from taking even one tree off our island.

I have lived in this beautiful place for 20 years. I grew up walking through these forests and I will not watch anyone destroy them because they are part of me. Neither will the rest of Bowen's inhabitants who are strong, determined, intelligent and brave people.

Force them to take their logging industry elsewhere, not to this community.

Yours sincerely,
Bronwyn Churcher
(Teacher and resident of Bowen Island)
