Dear Mr. Sanchez

as a citizen of Bowen Island, I want to express my concerns about the immediate and long term effect that this logging project would have on our whole island. All areas will be effected, our lives, our safety, the ecosystem, wildlife and even tourism. Logging on Bowen Island is not even commercially profitable and why ruin and destroy this place and habitat?? It will mess up the watersheds and water will become more and more valuable throughout the next years, also due to Climate Change. It will be devastating for Bowen Island and for each and every single of us, who live here and who treasure this place and it's still intact ecosystem. Everything speaks against such a step. Don't let logging destroy Bowen Island!

Sincerely
Christiane Prim Silva
Bowen Island, BC
