Subject: No timber sales on Bowen island

Follow Up Flag: Follow up
Flag Status: Flagged

We won't mince words, the people of Bowen Island (ie. Property owners, tax payers, children who are growing up here, workers, seniors, politicians) DO NOT want bc timber sales, nor anyone else, setting foot on our crown lands.

This small island does not need the industry or any potential revenue from this venture. Logging this small island should not be considered. The community has spoken, and all groups involved agree, this venture goes against everything we stand for. We are a community dependent upon tourism dollars and the majority of our tourists come to enjoy our wilderness and what it offers.

BC Timber Sales needs to listen to us. We are clear...logging this island and our small ecosystems are not an option.

Sincerely,

Rebecca Laursen and Andreas Behm
Long time residents and property owners
