Hello Enrique,

I understand you are exploring commercial logging on Bowen Island. I am writing you to inform you of my opposition to this idea. I am a lifelong resident of Bowen and I can tell you that this type of industrial development is the wrong direction for our community. Myself and the vast majority of others who live on this island are motivated to maintain the natural assets in their current condition. We rely on the beautiful scenery, trails and natural environment in general to support our growing tourism and wellness based economy. I am concerned for the watersheds and habitats of our non human residents of the island as well.

Just because you may have the opportunity and rights to explore this doesn't make it right. I do support a sustainable and healthy forestry industry in British Columbia and I know a lot of other communities would welcome this type of development; but Bowen is not one of them. We have a different vision for our community and I ask you to respect that.

Sincerely,

Sam Nosek
